THE PROBLEM

Do you ever ask yourself:

- "Why does eyeliner look different on my eye shape?"
- "What shade actually works for my undertone?"
- "How do I support small businesses instead of the same 5 big names?"

Unfortunately:

- Influencer looks don't translate to every face
- Money is being wasted on products that don't fit one's features
- Too many tutorials are generic and not personalized
- No tool to analyzes your technique and face structure
- Small beauty brands are hard to discover

THE OPPORTUNITY

- Beauty-tech + AR market growing rapidly
- Gen Z wants personalized beauty
- AI imaging + facial mapping makes personalization possible
- Rise of small business brands → need a discovery platform
